Quamque patent late nunc ergasteria, quondam  
Vix brevibus tectis usibus apta suis?  
Namque supercilio prospectant moenia longe,  
Quæ modo ruricolæ, & pauper agellus erant.  
Consulis hinc liceat fasces distinguere lauru,  
Cum virgisque quiris laurea ferta ferant,  
At ego pullatos video procedere fasces,  
Defluxit laurus deciduumque decus,  
Ferali fasces horrent tristique cupressu,  
Quam cito lauretum degenerare potest?  
Ilicet! ad plures abiit Falcknerus, & orbam  
Urbem relliquit cum patribus patriæ,  
Ilicet! ipsa Themis pullato syrmate funus  
Consequitur spectans ore gemente rogos,  
Ilicet! ipsa suum testatur Curia lu&ctum,  
Nilque piis urnis illacrumasse pudet,  
Ilicet! æra suum longe Campana dolorem  
Murmuribus raucis testificata stupent.  
Et mea Musa stupet passos hirtula capillos,  
Sordida quæ palla fordidiore gemit,  
Namque peregrinis quando primum advena terris  
Transtulit hucce lares, transtulit hucce domos,  
Cernua reptabat nimium paupercula, gressu  
Incerto titubans prospiciebat humum,  
Hic me sublimes ad sidera tollere vultus  
Hortatus, tremulos fulciit ipse gradus.  
Nunc adeo nostrum est, sacras venerarier umbras,  
Pullatos fasces nunc coluisse decet,
